January 22, 2025

Dear Morrisville School Community,

I appreciate your patience and understanding with the changes to school schedules yesterday and today due to weather. The purpose of the changes is to provide safer conditions for our students to and from school, and to address any potential issues in the buildings resulting from the cold. I have been trying to ensure that decisions impacting the school day are made, and communicated, in a timely manner so that you can adjust accordingly.

I was made aware this morning at 6:50 AM that a pipe burst in the MS/HS/Intermediate Campus. Flooding in areas of the building resulted. The burst pipe also released sediment and chemicals from the pipe and a nauseating odor has filled the entire building. I did not want to subject the students or the faculty and staff to these types of conditions today.

With the MS/HS/Intermediate Campus being impacted, we were unable to make breakfast or lunch for the students at Grandview. This impacted the entire district and the decision to be asynchronous today.

Our maintenance crew is continuing to work on getting the issues resolved as quickly as possible. I will be in constant contact with them throughout the day. We are hoping this will not impact our school day on Thursday. Should there continue to be an issue that may affect tomorrow, we will try to communicate that to you as soon as possible.

All after-school activities for today are cancelled, as well as tonight's basketball game. The game will be rescheduled.

Kindest Regards,

Dr. Andrew J. Doster
