

ARP ESSER Health and Safety Plan Guidance & Template

Section 2001(l)(1) of the American Rescue Plan (ARP) Act requires each local education agency (LEA) that receives funding under the ARP Elementary and Secondary School Emergency Relief (ESSER) Fund to develop and make publicly available on the LEA's website a *Safe Return to In-Person Instruction and Continuity of Services Plan*, hereinafter referred to as a *Health and Safety Plan*.

Based on ARP requirements, 90 percent of ARP ESSER funds will be distributed to school districts and charter schools based on their relative share of Title I-A funding in FY 2020-2021. Given Federally required timelines, LEAs eligible to apply for and receive this portion of the ARP ESSER funding must submit a Health and Safety Plan that meets ARP Act requirements to the Pennsylvania Department of Education (PDE) by Friday, July 30, 2021, regardless of when the LEA submits its ARP ESSER application.

Each LEA must create a Health and Safety Plan that addresses how it will maintain the health and safety of students, educators, and other staff, and which will serve as local guidelines for all instructional and non-instructional school activities during the period of the LEA's ARP ESSER grant. The Health and Safety Plan should be tailored to the unique needs of each LEA and its schools and must take into account public comment related to the development of, and subsequent revisions to, the Health and Safety Plan.

The ARP Act and U.S. Department of Education rules require Health and Safety plans include the following components:

1. How the LEA will, to the greatest extent practicable, implement prevention and mitigation policies in line with the most up-to-date guidance from the Centers for Disease Control and Prevention (CDC) for the reopening and operation of school facilities in order to continuously and safely open and operate schools for in-person learning;
2. How the LEA will ensure continuity of services, including but not limited to services to address the students' academic needs, and students' and staff members' social, emotional, mental health, and other needs, which may include student health and food services;
3. How the LEA will maintain the health and safety of students, educators, and other staff and the extent to which it has adopted policies, and a description of any such policy on each of the following safety recommendations established by the CDC:
 - a. Universal and correct wearing of [masks](#);
 - b. Modifying facilities to allow for [physical distancing](#) (e.g., use of cohorts/podding);
 - c. [Handwashing and respiratory etiquette](#);
 - d. [Cleaning](#) and maintaining healthy facilities, including improving [ventilation](#);

Health and Safety Plan Summary: **School District of Borough of Morrisville**

Initial Effective Date: June 17, 2021

Date of Last Review: September 21, 2022

Date of Last Revision: September 23, 2022

- e. [Contact tracing](#) in combination with [isolation](#) and [quarantine](#), in collaboration with State and local health departments;
- f. [Diagnostic](#) and screening testing;
- g. Efforts to provide COVID-19 [vaccinations to school communities](#);
- h. Appropriate accommodations for children with disabilities with respect to health and safety policies; and
- i. Coordination with state and local health officials.

The LEA's Health and Safety Plan must be approved by its governing body and posted on the LEA's publicly available website by July 30, 2021.* The ARP Act requires LEAs to post their Health and Safety Plans online in a language that parents/caregivers can understand, or, if it is not practicable to provide written translations to an individual with limited English proficiency, be orally translated. The plan also must be provided in an alternative format accessible, upon request, by a parent who is an individual with a disability as defined by the Americans with Disabilities Act.

Each LEA will upload in the eGrants system its updated Health and Safety Plan and webpage URL where the plan is located on the LEA's publicly available website.

The ARP Act requires LEAs to review their Health and Safety Plans at least every six months during the period of the LEA's ARP ESSER grant. LEAs also must review and update their plans whenever there are significant changes to the CDC recommendations for K-12 schools. Like the development of the plan, all revisions must be informed by community input and reviewed and approved by the governing body prior to posting on the LEA's publicly available website.

LEAs may use the template to revise their current Health and Safety Plans to meet ARP requirements and ensure all stakeholders are fully informed of the LEA's plan to safely resume instructional and non-instructional school activities, including in-person learning, for the current school year. An LEA may use a different plan template or format provided it includes all the elements required by the ARP Act, as listed above.

* The July 30 deadline applies only to school districts and charter schools that received federal Title I-A funds in FY 2020-2021 and intend to apply for and receive ARP ESSER funding.

Additional Resources

LEAs are advised to review the following resources when developing their Health and Safety Plans:

- [CDC K-12 School Operational Strategy](#)

Health and Safety Plan Summary: School District of Borough of Morrisville

Initial Effective Date: June 17, 2021

Date of Last Review: September 21, 2022

Date of Last Revision: September 23, 2022

School District of Borough of Morrisville

Introduction: The School District of Borough of Morrisville's Health and Safety Plan is informed by guidance from our federal, state, and county authorities. These include and are not limited to the Centers for Disease Control and Prevention (CDC), the Pennsylvania Department of Health (PADOH), the Pennsylvania Department of Education (PDE), and the Bucks County Department of Health (BCDH). Our District will continue to work in coordination with these agencies and our local partners to develop and refine expectations that meet all requirements.

- 1. How will the LEA, to the greatest extent practicable, support prevention and mitigation policies in line with the most up-to-date guidance from the CDC for the reopening and operation of school facilities in order to continuously and safely open and operate schools for in-person learning?**

The district will continue the Pandemic Planning Committee meetings to review current case data, as well as available Federal, State and Local guidance, and recommend modifications and adjustments to the current health and safety plan as needed. The plan will be reviewed and revised as necessary at the district level by the district's Pandemic Planning Committee as well as the building level teams. The revisions will be recommended to the Board for approval and changes will be communicated to all stakeholders.

- 2. How will the LEA ensure continuity of services, including but not limited to services to address the students' academic needs, and students' and staff members' social, emotional, mental health, and other needs, which may include student health and food services?**

The district will continue to ensure safe learning and working environments for all district students and staff members and will continue with our goal to provide in-person instruction during the 2022-2023 school year. The district will continue to ensure that all students receive instruction that meets state and federal standards and have the necessary supports for success, including access to technology and connectivity.

Our methods for educational delivery for the 2022-23 school year will be:

1. Regular in-person instruction will start on September 6, 2021, on a normal, Monday through Friday schedule.
2. Traditional homeschool options remain in place per board policy.
3. The district partners with the Bucks County Intermediate Unit to offer a cyber option through the Bridges Virtual Academy.

Health and Safety Plan Summary: **School District of Borough of Morrisville**

Student medical issues which require a temporary leave from school will be addressed on a case-by-case basis to determine appropriate instructional alternatives to continue the student's education in consideration of information provided by the student's health care provider, parent/guardians, principal and counselor, and IEP team, if applicable.

3. Use the table below to explain how the LEA will maintain the health and safety of students, educators, and other staff and the extent to which it has adopted policies, and a description of any such policy on each of the following safety recommendations established by the CDC.

ARP ESSER Requirement	Strategies, Policies, and Procedures
a. Universal and correct wearing of masks ;	<p>The School District of Borough of Morrisville will follow the most up to date Guidance for K-12 Schools from the CDC.</p> <ul style="list-style-type: none">• Operational Guidance for K-12 Schools and Early Care and Education Programs to Support Safe In-Person Learning.
b. Modifying facilities to allow for physical distancing (e.g., use of cohorts/podding);	<p>The district will rely on best practices, informed by federal, state, and local guidance, to design and implement high-quality teaching and learning environments. The district will continue to rely upon the BCDH's guidance for students, staff, and community.</p>
c. Handwashing and respiratory etiquette ;	<p>General hand hygiene will be practiced throughout the day to minimize spread through use of common items.</p> <p>All individuals will continue to be encouraged and reminded to sanitize or wash their hands on a frequent basis.</p> <p>Hand sanitizer will continue to be made available in all common areas, hallways, and/or lobby areas where sinks for handwashing are not available, in order to encourage frequent use.</p> <p>The District will continue to post signs in highly visible locations that promote everyday protective measures/hygiene and how to stop the spread of germs.</p>
d. Cleaning and maintaining healthy facilities, including improving	<p>The District will maintain its sanitizing and cleaning routines, including the procurement and distribution of PPE and cleaning materials when necessary and appropriate.</p>
